# Enhanced Specialty Guideline Management Treatment of Atopic Dermatitis Rinvoq

## **Products Referenced by this Document**

Drugs that are listed in the following table include both brand and generic and all dosage forms and strengths unless otherwise stated. Over-the-counter (OTC) products are not included unless otherwise stated.

Brand Name	Generic Name
Rinvoq	upadacitinib

#### **Indications**

This program applies to Rinvoq for the treatment of atopic dermatitis. For indications other than atopic dermatitis, refer to the Specialty Guideline Management program for Rinvoq. Coverage will be provided if all the approval criteria are met and the member has no exclusions to the prescribed therapy.

#### **Documentation**

Submission of the following information is necessary to initiate the prior authorization review:

#### Initial requests

• Chart notes or medical record documentation showing affected area(s) and affected body surface area (where applicable).

Atopic Dermatitis Enhanced SGM Rinvoq 5522-A P2025.docx

© 2025 CVS Caremark. All rights reserved.

Chart notes, medical record documentation, or claims history supporting previous medications
tried (including topical calcineurin inhibitors, topical corticosteroids, topical Janus kinase [JAK]
inhibitors, topical phosphodiesterase-4 [PDE-4] inhibitors, or biologics/targeted synthetic
drugs) including dosage, duration, and response to therapy. If therapy is not advisable,
documentation of clinical reason to avoid therapy (where applicable).

#### Continuation requests

Chart notes or medical record documentation supporting positive clinical response.

# **Prescriber Specialties**

This medication must be prescribed by or in consultation with a dermatologist or allergist/immunologist.

## **Coverage Criteria**

Authorization of 4 months may be granted for members 12 years of age or older for treatment of moderate-to-severe atopic dermatitis when the member has had an inadequate response or intolerance to at least one biologic (e.g., Adbry, Dupixent, Ebglyss, Nemluvio) or a systemic targeted synthetic drug (e.g., Cibinqo) in the past 180 days.

Authorization of 4 months may be granted for treatment of moderate-to-severe atopic dermatitis in members 12 years of age or older when all of the following criteria are met:<sup>1-5,8</sup>

- Affected body surface is greater than or equal to 10% body surface area OR crucial body areas (e.g., hands, feet, face, neck, scalp, genitals/groin, intertriginous areas) are affected.
- Member meets either of the following:
  - Member has had an inadequate treatment response with one of the following in the past 180 days:
    - A high potency or super-high potency topical corticosteroid (see Appendix)
    - A topical calcineurin inhibitor
    - A topical JAK inhibitor
    - A topical PDE-4 inhibitor
  - The use of high potency or super-high potency topical corticosteroid, topical calcineurin inhibitor, topical JAK inhibitor, and topical PDE-4 inhibitor are not advisable for the member (e.g., due to contraindications, prior intolerances, potency not appropriate for member's age).
- Member has had an inadequate response or intolerance to treatment with a biologic (e.g., Adbry, Dupixent, Eblgyss, Nemluvio) or a systemic targeted synthetic drug (e.g., Cibinqo) indicated for the treatment of atopic dermatitis.

# **Continuation of Therapy**

Authorization of 12 months may be granted for all members 12 years of age or older (including new members) who are using the requested medication for moderate-to-severe atopic dermatitis and who achieve or maintain a positive clinical response as evidenced by low disease activity (i.e., clear or almost clear skin), or improvement in signs and symptoms of atopic dermatitis (e.g., redness, itching, oozing/crusting).

#### Other<sup>1,6</sup>

Member has had a documented negative tuberculosis (TB) test (which can include a tuberculosis skin test [TST] or an interferon-release assay [IGRA]) within 12 months of initiating therapy for persons who are naïve to biologic drugs or targeted synthetic drugs associated with an increased risk of TB.

If the screening testing for TB is positive, there must be further testing to confirm there is no active disease (e.g., chest x-ray). Do not administer the requested medication to members with active TB infection. If there is latent disease, TB treatment must be started before initiation of the requested medication.

Member cannot use the requested medication concomitantly with any other biologic drug, targeted synthetic drug, or potent immunosuppressant such as azathioprine or cyclosporine.

## **Dosage and Administration**

Approvals may be subject to dosing limits in accordance with FDA-approved labeling, accepted compendia, and/or evidence-based practice guidelines.

## **Appendix**

#### Table. Relative potency of select topical corticosteroid products<sup>7</sup>

Potency	Drug	Dosage form	Strength
I. Super-high potency (group 1)	Augmented betamethasone dipropionate	Ointment, Lotion, Gel	0.05%
I. Super-high potency (group 1)	Clobetasol propionate	Cream, Gel, Ointment, Solution, Cream (emollient), Lotion, Shampoo, Foam, Spray	0.05%
I. Super-high potency (group 1)	Fluocinonide	Cream	0.1%

Potency	Drug	Dosage form	Strength
I. Super-high potency (group 1)	Flurandrenolide	Tape	4 mcg/cm <sup>2</sup>
I. Super-high potency (group 1)	Halobetasol propionate	Cream, Lotion, Ointment, Foam	0.05%
II. High potency (group 2)	Amcinonide	Ointment	0.1%
II. High potency (group 2)	Augmented betamethasone dipropionate	Cream	0.05%
II. High potency (group 2)	Betamethasone dipropionate	Ointment	0.05%
II. High potency (group 2)	Clobetasol propionate	Cream	0.025%
II. High potency (group 2)	Desoximetasone	Cream, Ointment, Spray	0.25%
II. High potency (group 2)	Desoximetasone	Gel	0.05%
II. High potency (group 2)	Diflorasone diacetate	Ointment, Cream (emollient)	0.05%
II. High potency (group 2)	Fluocinonide	Cream, Ointment, Gel, Solution	0.05%
II. High potency (group 2)	Halcinonide	Cream, Ointment	0.1%
II. High potency (group 2)	Halobetasol propionate	Lotion	0.01%
III. High potency (group 3)	Amcinonide	Cream, Lotion	0.1%
III. High potency (group 3)	Betamethasone dipropionate	Cream, hydrophilic emollient	0.05%
III. High potency (group 3)	Betamethasone valerate	Ointment	0.1%
III. High potency (group 3)	Betamethasone valerate	Foam	0.12%
III. High potency (group 3)	Desoximetasone	Cream, Ointment	0.05%
III. High potency (group 3)	Diflorasone diacetate	Cream	0.05%
III. High potency (group 3)	Fluocinonide	Cream, aqueous emollient	0.05%
