

# Initial Prior Authorization with Quantity Limit Sunosi Narcolepsy Agents

## **Products Referenced by this Document**

Drugs that are listed in the following table include both brand and generic and all dosage forms and strengths unless otherwise stated. Over-the-counter (OTC) products are not included unless otherwise stated.

Brand Name	Generic Name
Sunosi	solriamfetol

## Indications

#### **FDA-approved Indications**

Sunosi is indicated to improve wakefulness in adult patients with excessive daytime sleepiness associated with narcolepsy or obstructive sleep apnea (OSA).

#### Limitations of Use

Sunosi is not indicated to treat the underlying airway obstruction in OSA. Ensure that the underlying airway obstruction is treated (e.g., with continuous positive airway pressure (CPAP)) for at least one month prior to initiating Sunosi for excessive daytime sleepiness. Modalities to treat the underlying airway obstruction should be continued during treatment with Sunosi. Sunosi is not a substitute for these modalities.

## **Coverage Criteria**

#### Narcolepsy

Authorization may be granted for a diagnosis of excessive daytime sleepiness associated with narcolepsy when ALL of the following criteria are met:

- The requested drug is being prescribed by, or in consultation with, a sleep specialist.
- The diagnosis has been confirmed by sleep study.
- The patient meets ONE of the following:
  - The patient has experienced an inadequate treatment response to armodafinil OR modafinil.
  - The patient has experienced an intolerance to armodafinil OR modafinil.
  - The patient has a contraindication that would prohibit a trial of ALL of the following: armodafinil, modafinil.

### Obstructive Sleep Apnea (OSA)

Authorization may be granted for a diagnosis of excessive daytime sleepiness associated with obstructive sleep apnea (OSA) when ALL of the following criteria are met:

- The requested drug is being prescribed by, or in consultation with, a sleep specialist.
- The diagnosis has been confirmed by polysomnography or home sleep apnea test (HSAT) with a technically adequate device.
- The patient has been receiving treatment for the underlying airway obstruction (continuous positive airway pressure [CPAP] or bilevel positive airway pressure [BIPAP]) for at least one month.
- The patient will continue to use CPAP or BIPAP after the requested drug is started.
- The patient meets ONE of the following:
  - The patient has experienced an inadequate treatment response to armodafinil OR modafinil.
  - The patient has experienced an intolerance to armodafinil OR modafinil.
  - The patient has a contraindication that would prohibit a trial of ALL of the following: armodafinil, modafinil.

# **Continuation of Therapy**

## Narcolepsy

Authorization may be granted for a diagnosis of excessive daytime sleepiness associated with narcolepsy when the following criteria is met:

• The patient has achieved or maintained a decrease in daytime sleepiness with narcolepsy from baseline.

#### **Obstructive Sleep Apnea (OSA)**

Authorization may be granted for a diagnosis of excessive daytime sleepiness associated with obstructive sleep apnea (OSA) when ALL of the following criteria are met:

- The patient has achieved or maintained a decrease in daytime sleepiness with OSA from baseline.
- The patient is compliant with using continuous positive airway pressure (CPAP) or bilevel positive airway pressure (BIPAP).

# **Quantity Limits Apply**

30 tablets per 25 days or 90 tablets per 75 days

The duration of 25 days is used for a 30-day fill period and 75 days is used for a 90-day fill period to allow time for refill processing.

# **Duration of Approval (DOA)**

• 2915-C: DOA: 12 months
