**Please check the appropriate answer for each applicable question.**

1. What is the diagnosis?
  - Hereditary angioedema (HAE) with C1 inhibitor deficiency or dysfunction confirmed by laboratory testing (If checked, go to 2) ☐
  - Hereditary angioedema (HAE) with normal C1 inhibitor confirmed by laboratory testing (If checked, go to 3) ☐
  - Other, please specify. (If checked, no further questions) ☐
  - \_\_\_\_\_
2. Which of the following conditions does the patient have at the time of diagnosis? ACTION REQUIRED: For any answer, attach laboratory test or medical record documentation confirming C1 inhibitor functional and antigenic protein levels.
  - A C1 inhibitor (C1-INH) antigenic level below the lower limit of normal as defined by the laboratory performing the test (If checked, go to 4) ☐
  - A normal C1 inhibitor (C1-INH) antigenic level and a low C1-INH functional level (functional C1-INH less than 50% or C1-INH functional level below the lower limit of normal as defined by the laboratory performing the test) (If checked, go to 4) ☐
  - Other, please specify. (If checked, no further questions) ☐
  - \_\_\_\_\_
  - ACTION REQUIRED: Submit supporting documentation
3. Which of the following conditions does the patient have at the time of diagnosis? ACTION REQUIRED: For any answer, attach laboratory test or medical record documentation confirming normal C1 inhibitor. Based on the answer provided, attach genetic test or medical record documentation confirming F12, angiotensinogen, plasminogen, kininogen-1 (KNG1), heparan sulfate-glucosaminase 3-O-sulfotransferase 6 (HS3ST6), or myoferlin (MYOF) gene mutation testing or chart notes confirming family history of angioedema and the angioedema was refractory to a trial of high-dose antihistamine therapy.
  - F12, angiotensinogen, plasminogen, kininogen-1 (KNG1), heparan sulfate-glucosaminase 3-O-sulfotransferase 6 (HS3ST6), or myoferlin (MYOF) gene mutation as confirmed by genetic testing (If checked, go to 4) ☐
  - BOTH of the following: 1) Angioedema refractory to a trial of high-dose antihistamine therapy (i.e., cetirizine at 40 mg per day or the equivalent) for at least one month AND 2) Family history of angioedema (If checked, go to 4) ☐
  - Other, please specify. (If checked, no further questions) ☐
  - \_\_\_\_\_
  - ACTION REQUIRED: Submit supporting documentation

- |     |   |   |                          |   |                          |
|-----|---|---|--------------------------|---|--------------------------|
| 4.  | Is the requested medication being used for the treatment of acute hereditary angioedema (HAE) attacks?  | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 5.  | Will the requested medication be used in combination with any other medication used for treatment of acute hereditary angioedema (HAE) attacks (e.g., Berinert, Firazyr, Kalbitor)?   | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 6.  | Have other causes of angioedema been ruled out (e.g., angiotensin-converting enzyme inhibitor [ACE-I] induced angioedema, angioedema related to an estrogen-containing drug, allergic angioedema)?  | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 7.  | Is the requested medication being prescribed by or in consultation with a prescriber who specializes in the management of hereditary angioedema (HAE)?  | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 8.  | Has the patient previously received treatment with the requested medication?  | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 9.  | Has the patient experienced a reduction in severity and/or duration of acute attacks?<br>ACTION REQUIRED: If Yes, attach supporting chart note(s) demonstrating a reduction in severity and/or duration of acute attacks.<br>ACTION REQUIRED: Submit supporting documentation | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 10. | Does the patient's attack frequency, attack severity, comorbid conditions and patient's quality of life warrant prophylactic therapy?   | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 11. | Has prophylactic treatment been considered?   | Y | <input type="checkbox"/> | N | <input type="checkbox"/> |
| 12. | Please provide a brief rationale as to why prophylactic treatment has not been considered.<br>Please specify rationale. (If checked, no further questions)  |   | <input type="checkbox"/> |   |                          |
|     | Unknown (If checked, no further questions)  |   | <input type="checkbox"/> |   |                          |

I attest that the medication requested is medically necessary for this patient. I further attest that the information provided is accurate and true, and that the documentation supporting this information is available for review if requested by the claims processor, the health plan sponsor, or, if applicable a state or federal regulatory agency.

**Prescriber (Or Authorized) Signature and Date**

Now you can get responses to drug PAs immediately and securely online—without faxes, phone calls, or waiting. How? With electronic prior authorization (ePA)! For more information and to register, go to [www.caremark.com/epa](http://www.caremark.com/epa).
