# Specialty Guideline Management Vyjuvek

### **Products Referenced by this Document**

Drugs that are listed in the following table include both brand and generic and all dosage forms and strengths unless otherwise stated. Over-the-counter (OTC) products are not included unless otherwise stated.

Brand Name	Generic Name
Vyjuvek	beremagene geperpavec-svdt

#### **Indications**

The indications below including FDA-approved indications and compendial uses are considered a covered benefit provided that all the approval criteria are met and the member has no exclusions to the prescribed therapy.

#### FDA-approved Indications<sup>1</sup>

Vyjuvek is indicated for the treatment of wounds in patients 6 months of age and older with dystrophic epidermolysis bullosa with mutation(s) in the collagen type VII alpha 1 chain (COL7A1) gene.

All other indications are considered experimental/investigational and not medically necessary

#### **Documentation**

Submission of the following information is necessary to initiate the prior authorization review:

- Medical records documenting clinical manifestations of disease.
- Genetic test results confirming a mutation in the COL7A1 gene.

## **Prescriber Specialties**

This medication must be prescribed by or in consultation with a dermatologist or wound care specialist.

## **Coverage Criteria**

#### Dystrophic Epidermolysis Bullosa (DEB)<sup>1,2</sup>

Authorization of 12 months may be granted for treatment of wounds in members with dystrophic epidermolysis bullosa (DEB) when all of the following criteria are met:

- Member is 6 months of age or older.
- Member has clinical manifestations of disease (e.g., extensive skin blistering, skin erosions, scarring).
- Member has genetic test results confirming a mutation in the COL7A1 gene.
- Member has one or more open wounds that will be treated (i.e., target wounds)
- Target wound(s) meet all of the following:
  - Wound is clear in appearance and does not appear to be infected
  - Wound has adequate granulation tissue and vascularization
  - Member does not have a history of squamous cell carcinoma in the affected wound(s) that will receive treatment.
- The requested medication will be administered once weekly to the affected wound(s) by a
  healthcare professional either at a healthcare professional setting (e.g., clinic) or a home
  setting.
- The requested medication will not be administered to wound(s) that are currently healed.
