

# Specialty Quantity Limit Program

## Aqneursa (levacetylleucine)

### Products Referenced by this Document

Drugs that are listed in the following table include both brand and generic and all dosage forms and strengths unless otherwise stated. Over the counter (OTC) products are not included unless otherwise stated.

Brand Name	Generic Name
Aqneursa	levacetylleucine

### Program Description

The standard limit is designed to allow a quantity sufficient for the most common uses of the medication. If the member's plan allows a quantity limit exception review for the requested medication, coverage of an additional quantity may be provided up to the exception limit with prior authorization.

### FDA-recommended Dosing

The recommended Aqneursa oral dosage for patients with actual body weight of:

- 15 kg to < 25 kg, is 1 gram twice a day
- 25 kg to < 35 kg, is 1 gram three times a day
- 35 kg or more, is 2 grams in the morning, 1 gram in the afternoon, and 1 gram in the evening

### Covered Quantities

The limit may apply to the generic equivalent medications.

Medication	Standard Limit
Aqneursa (levacetylleucine) 1 gram unit-dose packets [28 unit-dose packets per carton]	112 packets per 28 days

Reference number(s)
6676-H
