# Specialty Quantity Limit Itovebi

## Products Referenced by this Document

Drugs that are listed in the following table include both brand and generic and all dosage forms and strengths unless otherwise stated. Over-the-counter (OTC) products are not included unless otherwise stated.

Brand Name	Generic Name
Itovebi	inavolisib

## Program Description

The standard limit is designed to allow a quantity sufficient for the most common uses of the medication. The recommended dosing parameters for the treatment of all FDA-approved indications fall within the standard limits. Coverage of an additional quantity may be reviewed on a case-by-case basis upon request.

## Covered Quantities

Medication	Standard Limit
Itovebi (inavolisib) 3 mg	60 tablets per 30 days
Itovebi (inavolisib) 9 mg	30 tablets per 30 days

### FDA-recommended Dosing

The recommended dose is 9 mg taken orally once daily, with or without food.

Dose modifications may be required for adverse reactions or moderate renal impairment.

#### Dose reductions:

- 6 mg once daily
- 3 mg once daily
